

EnviroBright[®]

This product is an exceptionally clean recycled sheet that requires minimal refining, which saves energy. A blend of high quality hard and softwood fibers result in a sheet that can be produced at 100% PCW content.

Available in both standard and high brightness levels.

100%

The mark of responsible forestry

100% POST-CONSUMER FIBER

UV DEAD TO 88.5 BRIGHTNESS

ALL TYPES OF PRINTING PAPERS

PROCESS CHLORINE FREE AVAILABLE

Applications

- Commercial papers
- Book publishing
- Printing and writing
- Ink-jet
